RE: Comment on SOS Plea: Opinion No.2014 - 116046
Posted on ACC Docket E-01345A-13-0069¹

Dear Commissioners,

ORIGINAL

Sedona citizen, Marianna Hartsong, posted an **SOS Plea** on May 2nd: **"My plea is that you immediately request APS remove all Smart Meters from Sedona."**

I join Marianna in her plea that APS remove all Smart Meters from Sedona, particularly because I now understand that the so called APS AMI "smart" meter grid system is **weaponized microwave technology**. AMI is similar, but most probably more powerful in its direct and continuing exposure of the public, than the microwave weapons the Russians used on our US Embassy in Moscow, during the Cold War.² Although I am very sorry that Marianna and her bees have already suffered from the toxic microwave AMI field exposure; I am also grateful that Marianna Hartsong is capable of *paying attention to detail more than most of us* and that she has the heart to shout her findings to the rooftops!

Although I have not met Maryanna, nor have we spoken on the phone, I decided to respect her privacy upon reading her written statement: "I do not have energy to engage in long conversations." I looked Marianna up on her website (<http://www.hartsong.net>) and notice that she has a Ph.D. in Clinical Psychology, an honor's B.A. degree in German and Music from Harvard, is a certified Massage Therapist, an Awareness Educator, a Spiritual Counselor/Coach, specializes

in Trager® Psychophysical Integration, Emotional Freedom Technique™, Reiki, Nomadics, Feldenkrais, and much more. She plays the viola and is a member of the Desert Willow String Quartet and the Flagstaff Symphony. In order to be diligent, I spoke with Warren Woodward and Paul Harding and verified that she did have them to her home to measure with some 'very fancy measuring equipment'. I am convinced that Marianna is authentic and sensitive in what she states in her May 2, SOS posting on dockets E-01345A-13-0069 and E-00000C-11-0328.

Looks like the pulse microwave radiation "smart" meter & grid system (AMI), is a **weapon of mass destruction (WMD)**. According to Wikipedia under Military, "For the general purposes of national defense, the U.S. Code defines a weapon of mass destruction as: any weapon or device that is intended, or has the capability, to cause death or serious bodily injury to a significant number of people through the release, dissemination, or impact of:

- toxic or poisonous chemicals or their precursors
- a disease organism
- **radiation** or radioactivity" [28] "US CODE: 50, ch. 40, § 2302. Definitions". law.cornell.edu. 23 March 2010. Retrieved 5 August 2010. (my bold on radiation)

Please review the US Navy document, Docket No. E-00000C-11-0328 **"MORE THAN 2000 DOCUMENTS PRIOR TO 1972 ON BIOEFFECTS OF RADIO FREQUENCY RADIATION"** compiled by Zorach R. Glaser, Ph.D. LT, MSC, URNR, with its 17 categories of harm, including death. Please protect the Arizona population and environment from microwave radiation.

I would like to point out that APS is irresponsibly harming Marianna and the public at large, with WMD "smart" AMI meter technology, in breach of **A.R.S. 40-361.B**, that states: "Every public service corporation shall furnish and maintain such service, equipment and facilities as will promote the safety, health, comfort and convenience of its patrons, employees and

the public, and as will be in all respects adequate, efficient and reasonable."

Marianna kept her analog meter: clear evidence that harm was caused by **AMI radiation**, when Marianna and her bees began to suffer on April 9th, the day APS 'smart' AMIs were installed in her neighborhood. Marianna's May 2, 2014 SOS Plea, for the removal of all "smart" AMI meters in Sedona, is definitely appropriate. *Marianna's remedy* is a gift to Sedona. Marianna and all Sedona citizens and visitors should be able to safely sleep and live indoors and outdoors without ubiquitous pulsed microwave targeting everywhere they go in Sedona.

AMI WMDs are not appropriately deployed by our ACC against the public it is charged to protect, in my opinion. Upon review of DOCKET NO. E-00000A-06-0038 DECISION NO. 69736, I see no disclosure to the Commissioners or to the ARIZONA PUBLIC about AMI pulsed microwave biological and WMD concerns and risks: **no informed consent** for us. Since our Federal Government has failed to safely regulate AMI microwave radiation³ from an ethical biological point of view, by default, The State of Arizona must NOW PROTECT ITS CITIZENS FROM AMI WMDs.

Returning to Marianna Hartsong's May 2nd SOS Plea, I ask that the ACC require APS remove all Smart Meter WMDs from Sedona. The harm to Marianna and her bees was caused solely by neighboring AMI WMDs.

Respectfully submitted,

Patricia Ferre
